Office Action Summary

Art Unit: 1712

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- a.) Amino or polyamino acid; or protein, peptide or enzyme; or human protein or fragment or recombinant therefore; or protein with a NH, CO, OH or SH retained functional group; and
- b.) Carbohydrate.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 20-25 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 1712

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Ms. Madeline I. Johnston on ^{Sept 25, 2000}~~308-0443~~ to request an oral election to the above restriction requirement, but did not result in an election being made.

3. Any inquiry concerning this communication should be directed to Examiner Lovering at telephone number (703) 308-0443.
